Designer 3D Computer Graphics

MS: JD INDE02

Job description :

Our client – one of the fastest growing game producers for Pachinko machines in Japan is looking for skilled and passionate designers in 3D Computer Graphics.

The selected designers will have opportunities to :

- Join a team of talented game artists in Japan.
- Have an overall vision of the whole process to release a successful game
- Be trained on job, collect experiences directly in many steps of production : Animation design, After effects design, Character modelling, Background modelling, Light modelling.
- Receive attractive salary so that you can concentrate 100% of your energy in improving your skills and in making beautiful games.
- Have possibilities to go to Japan to work.

Moreover, designers with leader spirit will be probably promoted to lead our new production unit in Vietnam in the near future.

Job requirement :

If you see yourself possessing the following qualities, contact us as soon as possible :

- Be hardworking
- Be detailed and perfection-oriented.
- Be open-minded and communicative.
- Love drawing and can draw well, either on drawing tablets or on paper.
- Have experiences in 3D, Game, Animation design.
- Can speak English or Japanese at work. Or be ready to improve your Japanese skills.
- Be available to our job placement within 6 months.

To apply : please email your CV (with photo), application letter and your recent portfolios to Ms Minh at minhnp@socicom.vn.

In the subject of email, please clearly entitle ***JD INDE02 : Designer 3D Computer Graphics – Your name***

We will select gradually the suitable candidates on the basis of « First Come First Serve ». This vacancy will be closed once we find enough talents.

Only suitable candidates will be contacted by our HR department. Thanks for your understanding.
